

I would like to plead with you to not do anything to weaken the law of Indiana which helps the people of Indiana by not allowing companies to call. I pay for the use of my telephone, not the tele-marketer and I have the right to choose whether or not I wish to have calls from businesses. I choose not to have calls from businesses whether I already do business with them or not. Again, please do not do anything to weaken this law. It is a beautiful thing to sit down and have dinner with no unwanted phone calls. Thank you for your consideration.
